

SoftSkills Assignment

Module 3)

Projects

1. Describe a key project you have worked on or are currently working on.
 2. Explain the technologies used, the scope of the project, and its objectives.
 3. Highlight the challenges faced and how you addressed them, showcasing your problem solving skills.
- I have not develop any project, but in short Future I will develop a mobile application for digital society.
 - This app helps manage everything in our society easily. It's like having a personal assistant for all society matters.
 - This application have lots of feature such as Report problems, Society head can send important updates directly to your phone, Manage Event, Post important notice, etc...

- At present, I am facing a challenge in my project related to notifications. Implementing a reliable notification system to keep users informed about important updates and events is crucial. Initially, I encountered some mistakes in my approach, but I have identified and corrected them:
 1. Developed a local notification service using the Flutter Local Notifications plugin for in-app alerts.
 2. Created a notification management screen where users can customize their notification preferences.
